8th SOUTHERN AFRICAN SHARK & RAY SYMPOSIUM

PROGRAMME: Day 1, Tuesday 16th September

08:50	KEYNO	TE: Kim Bassos-Hull – Talk title TBC
Biology, physiology and ecology	09:30	Mandy Lombard: A research framework to improve knowledge of reproductive biology and movement ecology in threatened chondrichthyans
	09:45	Edward Bevan: Reef manta ray reproduction: guiding conservation through underwater ultrasound-based monitoring in southern Mozambique
physiolo ecology	10:00	François Lampen: Using elasmobranch ultrasonography to identify ecologically important habitat types and reproductive activity in the smooth hound shark (<i>Mustelus mustelus</i>) and diamond ray (<i>Gymnura natalensis</i>)
ogy, F	10:15	Kristina Naidoo: Development and comparison of gonadosomatic and hepatosomatic indices for sharks caught in the KwaZulu-Natal Sharks Board bather protection programme
Biol	10:30	Leigh de Necker: The trophic dynamics of False Bay's top predators: Who eats who?
	10:45	Stela Fernando: Breeding behaviour of Narcine rierai in Mozambique coast
	11:00	MORNING TEA
	11:30	Alison Kock: Investigating the ecological role of white sharks in a Cape fur seal rabies outbreak
pu	11:45	Anthony Bernard: Talk title changed; still confirming
Biology, physiology and ecology	12:00	Jessica Morrison: Blueprints: Validating photo-identification for endemic blue stingrays as tool for monitoring a critical aggregation site
physiol ecology	12:15	Jule Buschmann: Manta ray cleaning ecology: Novel insights from long-term remote camera monitoring in southern Mozambique
y, pl	12:30	Mark Fitzgibbon: Comparing subtidal and beach stranded shark egg case records in False Bay
iolog	12:45	Megan Maroen: The first empirical population trend assessment of white sharks, <i>Carcharodon carcharias</i> , in Gansbaai, South Africa
ш	13:00	Ralph Watson: Inter-dorsal fin lengths strongly correlate with other commonly-used length measurements in targeted elasmobranch species in South Africa
	13:05	· · · · · · · · · · · · · · · · · · ·
	13.03	LUNCH
	14:00	Juliana Klein: Population genomics of the spotted gully shark <i>Triakis megalopterus</i>
10	14:00	Juliana Klein: Population genomics of the spotted gully shark <i>Triakis megalopterus</i> Jessica Winn: Mitogenome sequencing reveals deep phylogeographic structure and a Northern
netics	14:00 14:15	Juliana Klein: Population genomics of the spotted gully shark <i>Triakis megalopterus</i> Jessica Winn: Mitogenome sequencing reveals deep phylogeographic structure and a Northern Hemisphere origin in the common smoothhound shark <i>Mustelus mustelus</i> Karla Redelinghuys: Update on the species delimitation of whiprays (Genus: Himantura) in the Western
Genetics	14:00 14:15 14:30	Juliana Klein: Population genomics of the spotted gully shark <i>Triakis megalopterus</i> Jessica Winn: Mitogenome sequencing reveals deep phylogeographic structure and a Northern Hemisphere origin in the common smoothhound shark <i>Mustelus mustelus</i> Karla Redelinghuys: Update on the species delimitation of whiprays (Genus: Himantura) in the Western Indian Ocean Kelvin Hull: Unravelling the evolutionary history and population demographics of the pyjama shark utilising
Genetics	14:00 14:15 14:30 14:45	Juliana Klein: Population genomics of the spotted gully shark <i>Triakis megalopterus</i> Jessica Winn: Mitogenome sequencing reveals deep phylogeographic structure and a Northern Hemisphere origin in the common smoothhound shark <i>Mustelus mustelus</i> Karla Redelinghuys: Update on the species delimitation of whiprays (Genus: Himantura) in the Western Indian Ocean Kelvin Hull: Unravelling the evolutionary history and population demographics of the pyjama shark utilising genomic data
Genetics	14:00 14:15 14:30 14:45 15:00	Juliana Klein: Population genomics of the spotted gully shark <i>Triakis megalopterus</i> Jessica Winn: Mitogenome sequencing reveals deep phylogeographic structure and a Northern Hemisphere origin in the common smoothhound shark <i>Mustelus mustelus</i> Karla Redelinghuys: Update on the species delimitation of whiprays (Genus: Himantura) in the Western Indian Ocean Kelvin Hull: Unravelling the evolutionary history and population demographics of the pyjama shark utilising genomic data Michaela van Staden: Molecular taxonomy of South Africa's catsharks: How far have we come?
Genetics	14:00 14:15 14:30 14:45 15:00 15:15	Juliana Klein: Population genomics of the spotted gully shark <i>Triakis megalopterus</i> Jessica Winn: Mitogenome sequencing reveals deep phylogeographic structure and a Northern Hemisphere origin in the common smoothhound shark <i>Mustelus mustelus</i> Karla Redelinghuys: Update on the species delimitation of whiprays (Genus: Himantura) in the Western Indian Ocean Kelvin Hull: Unravelling the evolutionary history and population demographics of the pyjama shark utilising genomic data Michaela van Staden: Molecular taxonomy of South Africa's catsharks: How far have we come? Nick Clemo: Conservation genetics of scalloped hammerhead sharks in the southwestern Indian Ocean Maëva Grondin-Bergerat: Understanding the genetic connectivity of bronze whaler sharks in the Western
Genetics	14:00 14:15 14:30 14:45 15:00 15:15 15:30	Juliana Klein: Population genomics of the spotted gully shark <i>Triakis megalopterus</i> Jessica Winn: Mitogenome sequencing reveals deep phylogeographic structure and a Northern Hemisphere origin in the common smoothhound shark <i>Mustelus mustelus</i> Karla Redelinghuys: Update on the species delimitation of whiprays (Genus: Himantura) in the Western Indian Ocean Kelvin Hull: Unravelling the evolutionary history and population demographics of the pyjama shark utilising genomic data Michaela van Staden: Molecular taxonomy of South Africa's catsharks: How far have we come? Nick Clemo: Conservation genetics of scalloped hammerhead sharks in the southwestern Indian Ocean Maëva Grondin-Bergerat: Understanding the genetic connectivity of bronze whaler sharks in the Western Indian Ocean: insights from Reunion Island George Brett: Investigating the adaptive potential and genomic resilience of <i>Callorhinchus capensis</i>
Genetics	14:00 14:15 14:30 14:45 15:00 15:15 15:30	Juliana Klein: Population genomics of the spotted gully shark <i>Triakis megalopterus</i> Jessica Winn: Mitogenome sequencing reveals deep phylogeographic structure and a Northern Hemisphere origin in the common smoothhound shark <i>Mustelus mustelus</i> Karla Redelinghuys: Update on the species delimitation of whiprays (Genus: Himantura) in the Western Indian Ocean Kelvin Hull: Unravelling the evolutionary history and population demographics of the pyjama shark utilising genomic data Michaela van Staden: Molecular taxonomy of South Africa's catsharks: How far have we come? Nick Clemo: Conservation genetics of scalloped hammerhead sharks in the southwestern Indian Ocean Maëva Grondin-Bergerat: Understanding the genetic connectivity of bronze whaler sharks in the Western Indian Ocean: insights from Reunion Island George Brett: Investigating the adaptive potential and genomic resilience of <i>Callorhinchus capensis</i> (SPEED TALK)
	14:00 14:15 14:30 14:45 15:00 15:15 15:30 15:45	Juliana Klein: Population genomics of the spotted gully shark <i>Triakis megalopterus</i> Jessica Winn: Mitogenome sequencing reveals deep phylogeographic structure and a Northern Hemisphere origin in the common smoothhound shark <i>Mustelus mustelus</i> Karla Redelinghuys: Update on the species delimitation of whiprays (Genus: Himantura) in the Western Indian Ocean Kelvin Hull: Unravelling the evolutionary history and population demographics of the pyjama shark utilising genomic data Michaela van Staden: Molecular taxonomy of South Africa's catsharks: How far have we come? Nick Clemo: Conservation genetics of scalloped hammerhead sharks in the southwestern Indian Ocean Maëva Grondin-Bergerat: Understanding the genetic connectivity of bronze whaler sharks in the Western Indian Ocean: insights from Reunion Island George Brett: Investigating the adaptive potential and genomic resilience of <i>Callorhinchus capensis</i> (SPEED TALK) AFTERNOON TEA
Diversity Genetics	14:00 14:15 14:30 14:45 15:00 15:15 15:30 15:45 15:50 16:15	Juliana Klein: Population genomics of the spotted gully shark <i>Triakis megalopterus</i> Jessica Winn: Mitogenome sequencing reveals deep phylogeographic structure and a Northern Hemisphere origin in the common smoothhound shark <i>Mustelus mustelus</i> Karla Redelinghuys: Update on the species delimitation of whiprays (Genus: Himantura) in the Western Indian Ocean Kelvin Hull: Unravelling the evolutionary history and population demographics of the pyjama shark utilising genomic data Michaela van Staden: Molecular taxonomy of South Africa's catsharks: How far have we come? Nick Clemo: Conservation genetics of scalloped hammerhead sharks in the southwestern Indian Ocean Maëva Grondin-Bergerat: Understanding the genetic connectivity of bronze whaler sharks in the Western Indian Ocean: insights from Reunion Island George Brett: Investigating the adaptive potential and genomic resilience of <i>Callorhinchus capensis</i> (SPEED TALK) AFTERNOON TEA Josh Rambahiniarison: Updating ecological knowledge on sharks and rays in Comoros Laure Amelia Desire: Patterns in shark and ray diversity and abundance across Seychelles: A synthesis

17:15	Abigail Eddy: Elasmobranch community structure on the continental slope offshore East London, South Africa
17:30	Dércio Pequeno Maoze: Preliminary assessment of elasmobranch diversity using baited remote underwater video (BRUVs) in southern Inhambane, Mozambique (SPEED TALK)
17:35	END OF DAY 1
18:30	DINNER AT THE LOWLANDER

8th SOUTHERN AFRICAN SHARK & RAY SYMPOSIUM

PROGRAMME: Day 2, Wednesday 17th September

	00.00	Ctava Carbarr Flooringh analysis and any in a placed biodiversity between
Conservation & management	09:30	Steve Gerber: Elasmobranch spatial ecology in a global biodiversity hotspot
	09:45	Kristina Loosen: Advancing chondrichthyan conservation along the South African coastline: an eDNA metabarcoding approach
	10:00	Dylan Irion: Integrating long-term datasets to estimate regional abundance of white sharks in southern Africa using continuous-time population models
	10:15	Naseeba Sidat: Supporting sustainable fisheries management and shark and ray conservation at Zalala Beach, in Mozambique
	10:30	Riaan Cedras: Making shark and ray monitoring matter for iSimangaliso Marine Protected Area management
	10:45	Charles Lucas Makio: Beyond data: Building conservation impact through local community-led BRUV surveys
	11:00	MORNING TEA
ent	11:30	Aseeqah Davids: The effectiveness of BRUVS in detecting and monitoring inshore elasmobranch communities within Marine Protected Areas
management	11:45	Jorge Sitoe: Assessing shark and ray diversity and abundance: Long-term stereo-BRUV monitoring in Maputo National Park, Mozambique – implications for Marine Protected Area (MPA) management
mana	12:00	Nakia Cullain: Tracking transboundary movements of manta rays to inform marine spatial planning in Mozambique and South Africa
a L	12:15	Bruce Mann: Movement patterns of the flapnose houndshark <i>Scylliogaleus quecketti</i> in the Pondoland Marine Protected Area using both external dart tagging and acoustic telemetry
rvatic	12:30	Stephanie Venables: Acoustic telemetry reveals spatial management priorities for bull sharks (Carcharhinus leucas) in Mozambique
Conservation &	12:45	Youri Ivann Mvomo Minko: Trophic ecology and nursery role of southern Gabonese waters for coastal sharks, critical data for marine spatial management
ပ	13:00	Leigh de Necker: Safeguarding South Africa's Threatened Chondrichthyans (SPEED TALK)
	13:05	LUNCH
<u>></u>	14:00	Ryan Daly: Breaking barriers: Transoceanic migration by a bull shark
ecology	14:15	Alex Winkler: Crossing continental divides, habitat use of <i>Myliobatis aquila</i> in South Africa and Portugal, a comparative biogeographic movement analysis
	14:30	Alison Towner: Uncharted waters: An update on white shark movement in South Africa and a landmark dispersal event
/em	14:45	Chantel Elston: Blue stingrays in the Knysna Estuary: evidence for first ray pupping ground in South Afric
Movement	15:00	Enrico Gennari: Use of passive acoustic telemetry on targeted and by-caught elasmobranch fishery species to inform future management strategies in South Africa
	15:15	AFTERNOON TEA
gy	15:45	Kevin Spiby: Insights into the movements of previously captive ragged-tooth sharks along the South African coastline
olooa	16:00	Mia Hattingh: Habitat use by lesser guitarfish Acroteriobatus annulatus along the Kleinemonde coastline (Eastern Cape, South Africa)
nent	16:15	Stella Diamant: Understanding whale shark habitat use in Nosy Be, Madagascar: Insights from acoustic telemetry
Movement ecology	16:30	Ralph Watson: Site-fidelity and environmental patterns through observational data & photo-identification of Bathytoshia brevicaudata in Gansbaai
Σ	16:45	Inge Adams: Release of a captive born short-tail stingray to the wild (SPEED TALK)
	16:50	END OF DAY 2

8th SOUTHERN AFRICAN SHARK & RAY SYMPOSIUM

PROGRAMME: Day 3, Thursday 18th September

Education, science ngagement & comms	09:30	Judy Mann: Using communication to inspire care for the ocean – and sharks
	09:45	Ghofrane El Abyedh: Coasts of care: Fishing community–led conservation efforts to conserve sharks and rays in Cameroon
	10:00	Isaah Seidu: Local Ecological Knowledge and socio-economic drivers of migration of artisanal shark fishers in West Africa
ion	10:15	Nico Booyens: Justice4Jaws: Youth-led advocacy and outreach for shark conservation
Education, engagement	10:30	Justin Blake: Meet a real-life shark scientist – Lessons from 1,000+ online talks
	10:45	Wade Naude: Decolonising the terminology and language in marine conservation
e e	11:00	Charles Lucas Makio: Enhancing elasmobranch conservation awareness through education: Knowledge gains and attitude shifts among fishers and students in coastal Kenya (SPEED TALK)
	11:05	MORNING TEA
	11:30	Matt Dicken: Political dimension of shark risk management in South Africa
Su	11:45	Sarah Waries: Unpacking multi-stakeholder roles in managing the risk and repercussions of unprovoked shark bites
ma	12:00	Sébastien Jaquemet: Global shark risk management: where are we coming from and where do we go?
Sharks & humans	12:15	Michaël Hoarau: Innovative tools for shark detection and risk mitigation in Reunion: Insights from the Centre Sécurité Requin
ıarks	12:30	Nadeem Nazurally: Sharks, cages, and concerns: Disentangling myths from evidence in aquaculture settings
Š	12:45	Cicely Nagel: A comparative study of colour and contrast discrimination in oceanic blacktip and bronze whaler sharks
	13:00	Matt Dicken: The South African shark risk management strategy of KwaZulu-Natal (SPEED TALK)
	13:05	LUNCH
	14:00	Bernadine Everett: Collateral damage in the KwaZulu-Natal crustacean trawl fishery
ade		
rade	14:15	Nina Faure-Beaulieu: Shark and ray catches across South Africa's hake bottom trawl fishery: comparing observer and logbook catch records
& trade	14:15 14:30	
•ඊ ග		observer and logbook catch records
ಿ ರ	14:30	observer and logbook catch records Abdalla Abdulla: Status of shark and ray landings in Tanzania and implications for management Elvinah Nyale: Interactions between the artisanal fishery and the Critically Endangered scalloped
•ඊ ග	14:30 14:45	observer and logbook catch records Abdalla Abdulla: Status of shark and ray landings in Tanzania and implications for management Elvinah Nyale: Interactions between the artisanal fishery and the Critically Endangered scalloped hammerhead shark in Kenya Oliver Wright: An interactive, data-driven platform for monitoring shark fin trade and detecting shark fin
•ඊ ග	14:30 14:45 15:00	observer and logbook catch records Abdalla Abdulla: Status of shark and ray landings in Tanzania and implications for management Elvinah Nyale: Interactions between the artisanal fishery and the Critically Endangered scalloped hammerhead shark in Kenya Oliver Wright: An interactive, data-driven platform for monitoring shark fin trade and detecting shark fin trafficking
Fisheries &	14:30 14:45 15:00 15:15	observer and logbook catch records Abdalla Abdulla: Status of shark and ray landings in Tanzania and implications for management Elvinah Nyale: Interactions between the artisanal fishery and the Critically Endangered scalloped hammerhead shark in Kenya Oliver Wright: An interactive, data-driven platform for monitoring shark fin trade and detecting shark fin trafficking Simone Louw: South African shark and ray trade dynamics
Fisheries &	14:30 14:45 15:00 15:15 15:30	observer and logbook catch records Abdalla Abdulla: Status of shark and ray landings in Tanzania and implications for management Elvinah Nyale: Interactions between the artisanal fishery and the Critically Endangered scalloped hammerhead shark in Kenya Oliver Wright: An interactive, data-driven platform for monitoring shark fin trade and detecting shark fin trafficking Simone Louw: South African shark and ray trade dynamics AFTERNOON TEA Warren Potts: Pro-environmental behavioural intervention improves angler catch and release practices
Fisheries &	14:30 14:45 15:00 15:15 15:30 16:00	observer and logbook catch records Abdalla Abdulla: Status of shark and ray landings in Tanzania and implications for management Elvinah Nyale: Interactions between the artisanal fishery and the Critically Endangered scalloped hammerhead shark in Kenya Oliver Wright: An interactive, data-driven platform for monitoring shark fin trade and detecting shark fin trafficking Simone Louw: South African shark and ray trade dynamics AFTERNOON TEA Warren Potts: Pro-environmental behavioural intervention improves angler catch and release practices and the health of released elasmobranchs
s & Fisheries &	14:30 14:45 15:00 15:15 15:30 16:00 16:15	observer and logbook catch records Abdalla Abdulla: Status of shark and ray landings in Tanzania and implications for management Elvinah Nyale: Interactions between the artisanal fishery and the Critically Endangered scalloped hammerhead shark in Kenya Oliver Wright: An interactive, data-driven platform for monitoring shark fin trade and detecting shark fin trafficking Simone Louw: South African shark and ray trade dynamics AFTERNOON TEA Warren Potts: Pro-environmental behavioural intervention improves angler catch and release practices and the health of released elasmobranchs Shanan Atkins: Quo vadis shark nets?
Fisheries &	14:30 14:45 15:00 15:15 15:30 16:00 16:15 16:30	Abdalla Abdulla: Status of shark and ray landings in Tanzania and implications for management Elvinah Nyale: Interactions between the artisanal fishery and the Critically Endangered scalloped hammerhead shark in Kenya Oliver Wright: An interactive, data-driven platform for monitoring shark fin trade and detecting shark fin trafficking Simone Louw: South African shark and ray trade dynamics AFTERNOON TEA Warren Potts: Pro-environmental behavioural intervention improves angler catch and release practices and the health of released elasmobranchs Shanan Atkins: Quo vadis shark nets? Matt Farthing: Global meta-analysis for predicting post-release mortality in marine recreational fisheries Thembelihle Ndlovu: Long-term catch trends of the bull ray Aetomylaeus bovinus along the KwaZulu-
